About Me:

Hi my name is Julie and I am Yorkshire lass. However I have now lived in the south for 32 years

I have enjoyed a long career working as a qualified nurse and midwife in the NHS for over 37 years. Gosh where have the years gone.

I feel my strengths are being patient, kind and caring. I love meeting new people and consider myself to be a real people person. I enjoy new challenges and embrace change. I'm hardworking and will always go 'that extra mile' aiming to make a real difference to whoever I'm caring for.

My expertise is working with babies and supporting families with small children up to going to school. However, I have a real passion and desire to work with the older generation. I feel my skills are transferable and I know I can make a positive difference to someone's life.

I have 3 grown up sons and 3 female cats...I felt outnumbered as the boys were growing up. My interests include travel, we've visited some fabulous places both in Europe and further afield.

Exercise and fitness is a big part of my life, I enjoy a variety of sports both as a participant and a spectator.

I balance this with some mental agility having taken up bridge in the last 2 years which I really enjoy, actually I love all card games.

I am very homely and love cooking and baking, being brought up on a farm with 4 siblings mum had to bake/cook as money was tight, she loved spending time in the kitchen with us.
